

# LEANDRO MATUS

JR. WEB DEVELOPER

## PROFESSIONAL PROFILE

---

As a junior web developer, I've been involved in various projects, utilizing technologies and frameworks such as React.js, Vue.js, Node.js, Fastify.js, Express.js, Laravel, and MongoDB, along with agile methodologies like Scrum. My self-taught approach to continuous learning and problem-solving demonstrates my ability to integrate and contribute effectively in dynamic development teams.

## WORK EXPERIENCE

---

### Web Developer - NicCoders (March 2023 - Present)

- My core responsibilities encompassed architecting the backend infrastructure of projects, orchestrating seamless database migrations to facilitate smooth transitions between versions, and meticulously implementing bespoke functionalities tailored to project specifications.

### Web Developer - CodeCrafters Labs (August 2023 - December 2023)

- I built a high-speed backend using Fastify for a critical project, greatly boosting system performance.
- I worked on setting up endpoints, managing HTTP requests, and fine-tuning server logic for maximum efficiency.

## EDUCATION

---

### Certificación Scrum (SFCP) (Noviembre 2023)

- Certificación Scrum otorgada por CertiProf, que demuestra mi conocimiento en metodologías ágiles y gestión de proyectos.

### Nerdify Bootcamp 2023 (April 2023 - August 2023)

- Practical skills in web development, including HTML, CSS, JavaScript, PHP, and frameworks such as React, Laravel, and Vue.
